Hi Ngoc,

Here are my comments below. I wanted to run it by you first since I think you'll need to help them out with this one. Line items per CSI proposal:

Line Item #3 – They are still using the minimum charge for boulders and also “fence around tree protection” is already included in line item #15

Line Item #4 – This is for testing the soil to offhaul to see if it's contaminated so they know which dump site to haul the dirt to but looks like this testing work is already included in line item #10

Line Item #9 – Remove, City's Material Testing Lab will do all testing

Line Item #10 – This should be the correct line item for soil testing. If true, remove line item #4

Line Item #14 – This mod is only if there's only 1 barrier right? They have 29.

Please contact me with any questions or comments.

Thanks,

Teenchee Le, P.E.
